Stakeholders:
Last updated:

Background [from your Usability Test Plan]

The discovery phase for [your app] began in [month year] with competitive research and user interviews. We discovered that people had [this problem]. The resulting prototype is an initial hypothesis on how we hope to solve the problem. Now, we would like to test the most important features and functionality for our primary persona [insert name]: [*enter basic information on features and functionality*].

Goals [from your Usability Test Plan]
  ●

Test Objectives [from your Usability Test Plan]

Methodology [from your Usability Test Plan]

Participants and Schedule [from your Usability Test Plan]

[We will test 6 participants. Their identities and contact information are considered confidential and should not be shared. Here is a list of participants and basic demographic information:]
